## Art Computer Labs: (2) Activate and Use OpenPath

Written By: Art Tech

## INTRODUCTION

- Use the free **OpenPath** app on your mobile device for access to lab spaces in the Art & Design department (Building 34).
- Only students enrolled in qualifying classes are eligible for after-hours access. To request access and set up **OpenPath** follow the steps in [this guide](#).

## Step 1 — Activate Smart Reader (Automatic)

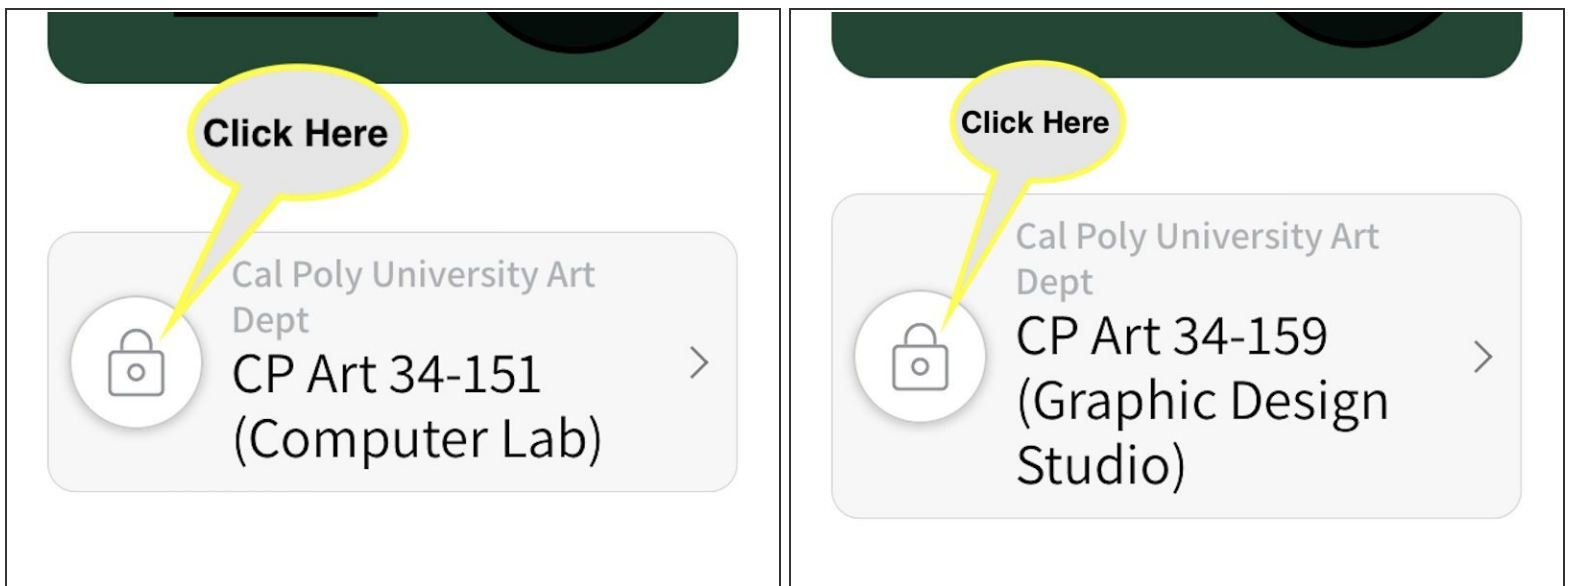

- With **OpenPath** installed and setup, and all the recommended services running on your phone, simply swipe close to the Smart Reader.

★ **Recommended services include:** Bluetooth, Wifi, and Location Services.

⚠ *The **OpenPath** app must be activated via an email invitation on your phone. Access will be denied until the setup is first completed.*

## Step 2 — Activate With App (Manual)

- If the Smart Reader does not detect your phone, or if any of the recommended services are not running, use the **OpenPath** app to manually open the lab door.
- Stand close to the lab door you want to open (Within about 6 ft.)
- Open the **OpenPath** app on your phone, and click the lock icon on the corresponding door.

### Step 3 — Verify and Enter

- Once activated, the **OpenPath Smart Reader** will show a white circular light, and the lock will click when it opens.
- The door will unlock for about 5 seconds, and then lock again.
