## Install drivers for the Monoprice Drawing Tablet

Written By: Matt Corippo

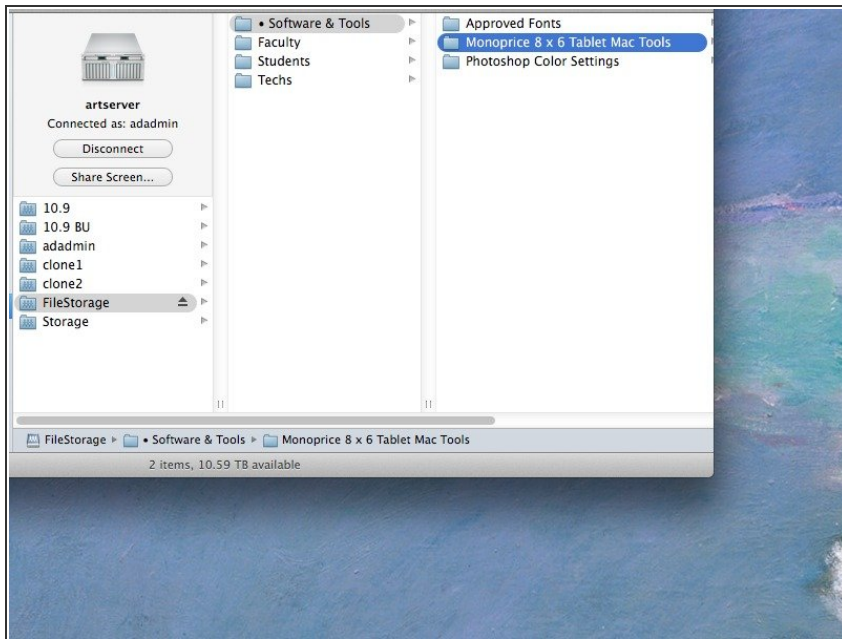

## INTRODUCTION

Follow this guide to install drivers for the recommended Monoprice drawing tablet.

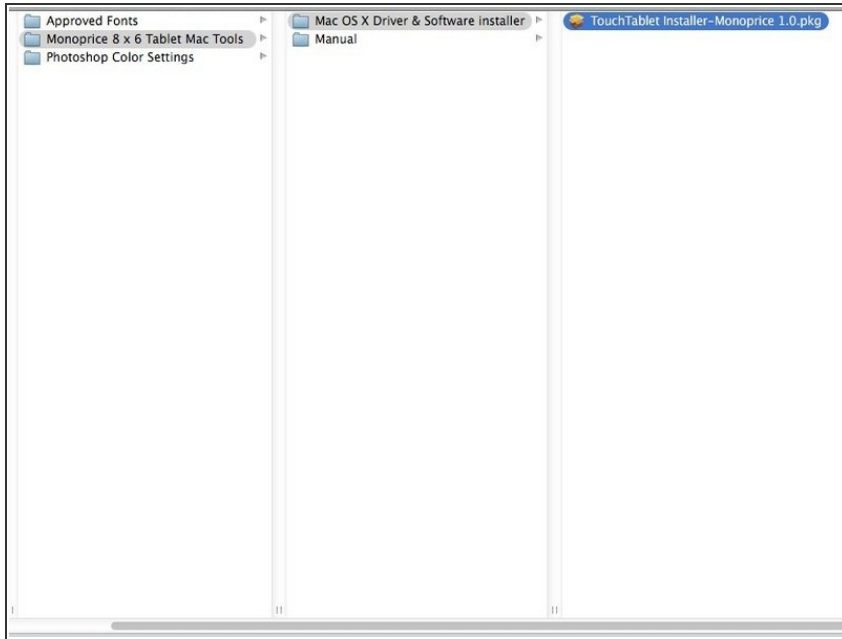

- Use the drivers from the CD that came with your tablet, or download them from the **Art & Design file server** while in the department, or see your instructor or IT support tech.
- Monoprice has different drivers for different models, so be sure you have the correct drivers for your tablet. These instructions are for the [supported/recommended 8" x 6" Monoprice tablet](#).
- Install the drivers **before** connecting the tablet to your Mac.

## Step 1 — Locate Tablet drivers

- If you don't have the original files, They are also located here:  
**FileStorage/• Software & Tools/Monoprice 8 x 6 Tablet Mac Drivers**
- ⓘ Log into any A&D lab computer to get access to **FileStorage**.
- Copy the entire **Monoprice 8 x 6 Tablet Mac Tools** folder to your computer (flash drive, cloud storage, etc.)

## Step 2 — Install Mac Tablet drivers

- Open **Mac OS X Driver and Software Installer**, then open **Mac OS X**, and then double click on **TouchTablet Installer-Monoprice 1.0.pkg** to run the driver installer.
- Complete the installer, and the **TouchTablet** Application should open. Plug in your tablet USB cable to adjust settings.
- ⓘ The **TouchTablet** Application can be found in the **Applications** folder.

If you have questions, or can't easily use a lab machine to grab the drivers from the departmental server, please see Matt the IT guy.
